## REPORT OF SCHOOL BOARD.

---

In compliance with the law, that provides that the school board shall make to the town and the town district, an annual report, we respectfully submit the following :—

The length of the school year has been 24 weeks, one week less in No. 11, and four less in No. 6, owing to sickness among the scholars in the latter case ; from the same cause this school lost two weeks in 1890.

The same teachers have been employed during both terms in each school, as far as possible, and the results obtained warrant us in the assertion, that in every instance our schools have been a success.

Repairs have been made upon the houses in districts Nos. 3, 4, 6, 7, and 9, to the extent of laying new floors, furnishing new seats and painting both inside and outside. On No. 4 the repairs were more extensive, amounting to a thorough renovation of the whole house.

The new desks in this house were the gift of our townsman, James C. Taylor, a life-long resident of the district ; and we take this occasion to tender him in behalf of ourselves and the district our most sincere thanks for his valuable and timely gift ; and we trust that those most immediately benefitted thereby will long remember, and duly appreciate the same.

The school house and lot in Dist. No. 1 has been sold in accordance with the vote passed at our last annual meeting.

We again call the attention of the district to the lack of school accommodations in district No. 11 (so called) ; the present house will accomodate but about two-thirds of the scholars comfortably,

provided the house could be heated properly in cold weather; this cannot be done with the present arrangement, and the defect should be remedied before another term is taught therein.

Your School Board would most respectfully suggest to the citizens of that district, that while they have been, and are now, showing such activity and zeal in procuring for themselves water-works, sidewalks, electric lights and numberless other comforts and luxuries which some consider essential to their prosperity and advancement, they do not longer neglect to interest themselves as thoroughly in providing for their children, comfortable and ample accomodations for schooling.

We would further recommend that the town district raise such sums annually in addition to the amount required by law, and what is obtained from other sources, as will allow our school year to consist of at least three terms of eleven weeks each.

The following list of names of pupils perfect in attendance for one or more terms, we find recorded in the several registers, for honorable mention and commendation:
